

Maulana Abul Kalam Azad University of Technology, West Bengal

Department of Renewable Energy Engineering

Action Taken Report

Based on feedback received from the students:

1. Emphasis on the student placement has been monitored by the department in connection with TPO. In addition department has initiated a common platform between current students and alumni to explore job opportunities.
2. In order to make the students industry ready, Student Initiative Program has been conducted in regular manner where expert from different industries shared their experiences to groom the students for particular industrial needs.
3. Department has formed departmental library (Digital & Physical) from where students/faculties can borrow books for their respective subjects.

Based on feedback received from the teachers:

1. As per the emerging need of new and renewable energy sector, R & D activities and advancement of technologies few papers have been added on designing, optimization and control of renewable energy harvesting.
2. As Renewable energy is the fastest growing energy source globally, the recent and future scopes in development in technologies & researches including much more hard skill training to make them industry ready has been incorporated in revised course curriculum to acquaint the PG students of the programme.

Based on feedback received from the Alumni:

1. Practical classes with active participation of students have been initiated after the lockdown.
2. Industrial visits are being organized on regular basis in different relevant industries.
3. Department formed alumni group and going to establish student chapter.

Prof. Ananta Kumar Das,
Head, Dept. of Renewable Energy Engineering,
